EXAMINER'S AMENDMENT & STATEMENT OF REASONS FOR ALLOWANCE

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. The application has been amended as follows to correct dependency and typographical errors:

Claim 16:

In line 1, delete "15" and insert therefor --11--.

Claim 17:

At the end of line 9 delete the term "and".

In line 11, change the punctuation from "." to --;--.

In line 14, delete "." and insert therefor --; and--.

In the last line of the claim, line 18, delete "a the plane of contact) a" and insert therefor --the plane of contact--.

Allowable Subject Matter

3. Claims 11-14, 16-19 & 22-24 are allowed.

4. The following is a statement of reasons for allowance: The closest prior art of record, HAPKE '424, fails to teach each and every limitation of the instant invention. Specifically, HAPKE '424 fails to teach or reasonably suggest the claimed washing machine lid lock of claim 11 comprising, *inter alia*, a pivotal hook pivotable between a contact position of a closed lid in an aperture of the lid and an open position with the hook is free from contact of the lid such that the pivot point and contact point are in a line along the direction opening of the lid, or the washing machine lid lock of claim 17 comprising, *inter alia*, an actuated pivotable hook with spring mechanism for urging the hook in two separate positions and a contact set including a sliding contact moving laterally over a stationary contact along a plane to provide an open circuit when the hook is in a first position and a closed circuit when the hook is in a second position, which is disclosed as an essential element of claimed invention, as described in the claims and argued by applicant in the instant response. For at least the foregoing reasons, independent claims 11 & 17 are believed to recite patentable subject matter.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
